—Wanted 150 head of cattle to summer, good pasture, watered by the Medicine river. D. M. Circle, Hazelton, Kansas.  
—The Alva Pioneer has our thanks for a map of M. county Oklahoma, an occurrence of which we failed to make mention last week.  
—The Willing Workers will give an ice cream social at the residence of Mrs. Allen Smith, next Wednesday afternoon, May 23rd. Everybody invited. Tickets 10 cents.  
—The Kiowa Journal has a candidate for county superintendent. Prof. Campbell can congratulate himself upon receiving the support of such influential statesmen.  
—J. P. Renfrew was in from Deerhead Saturday Mr. Renfrew has a fine claim south of Hardtut where most of his attention is devoted; hence his visits to the Lodge are less frequent than in days of yore.  
—Born to Mr. and Mrs. Harry Matthews, Sunday night, a twelve-pound girl. Dr. Moore in attendance. We wondered why Harry was in the back-yard "skinning the cat" instead of being at church. It is no longer a mystery.  
—Joe Zimmerman's gentle "bear ye" is now an enchanting melody in the sweet-scented air, which, together with the verdure of our vegetation and invigilating and aromatic flowers of endless description, reaches to the highest portals of sublimity.  
—J. M. Gibson from Texas, in company with his brother from near Elm Mills, made us a call Saturday. He is delighted with our beautiful climate and is well pleased with the country. Mr. Gibson is a pleasant gentleman and we are glad to have made his acquaintance.  
—Lynn White and Manuel McCully were over from Sharon, Saturday, to make final arrangements for the ball game between our boys and the Sharon nine. The contest will take place on Decoration day, May 30. Both nines are good teams and the game promises to be interesting.  
—J. Z. Fleming returned from Fort Scott last Wednesday and departed for Winfield Thursday, in the interest of his business which is canvassing for a prominent firm. He is doing a rushing business and is meeting with unusually good success, a fact that his friends are glad to note.  
—The Attica sugar works were sold at sheriff's sale last Tuesday for \$6,635. A. M. Foss, of Springfield, Ohio, was the purchaser, and will move the machinery at once to Springfield. The plant represents an investment of nearly \$100,000. The mill has not been in operation for nearly three years. The land on which the plant was located was sold for \$35.—Harper Sentinel.  
—County Surveyor D. F. Aber has donated to Treasurer Foss a neatly printed and framed reference table which is an article of much convenience to the latter. It shows the nature of the work of each month, with the number of the statute opposite under which it occurs. Mr. Aber is an artist of rare ability with swift and neat execution. It is certainly an elegant piece of handiwork and reflects great credit upon the genius of our surveyor.  
—Prof. Hull has been figuring on a white top school desk, and has at last found the material in Keen's white cement, manufactured by Best Bros., at Medicine Lodge. They will manufacture the tablets, in size to cover the top of the school desk and fastened on with screws. Tablets will be less than slabs in thickness, rounded edges and upper surface smooth as paper. Upon this surface pupils will do all their work with lead pencil, and wipe off with a damp sponge. This will do away with slates, with all their clutter and breakage. The manufacture of the tablets will begin as soon as the machinery can be procured. The material is gypsum, which is first burnt and then undergoes a chemical treatment resulting in the new cement. Mr. Best has traveled in twenty-six states and says that Medicine Lodge is the only place that contains the material used. The use of the tablets will revolutionize the school work. Prof. Hull is greatly pleased over his discovery and expects great things from the improvement. We wish him success.—Harper Sentinel.

—Allen Herr came up from Kiowa Thursday as a witness in the Hendrickson vs. Santa Fe case, having the stenographic notes of the testimony of witnesses that are not now living. He returned Saturday.  
—Editor Davis, of the Chronicle, went down to Medicine Lodge last week to see Chester I. We'll probably see Chester's picture in his paper this week. The new one with the Breckinridge pose.—Larned Eagle-Optic.  
—It is fun to see Tom Doran and M. Bristow dressed in colored shirts and blue overalls, start out with pick axe and shovel to work on the Woodward Fair grounds. They look like two overgrown railroad firemen on the dump. But they have succeeded in finishing one of the best race tracks to be found in Oklahoma. Woodward leads all public enterprise.—Advocate.  
—A fire consumed the house occupied by Charley Rankin and owned by Lem Moore, Monday morning. The fire originated on the roof and not being discovered in its incipency, all effort to quench the flames proved futile. The household effects were all rescued from the flames. The fire is supposed to have been caused by a defective fuse. We understand the property was insured.  
—A woman speaking at a woman's suffrage meeting is quoted as saying: "A man goes slowly around a subject, while a woman jumps over it." Well, that depends entirely on what the subject is. For instance, a man is not going very slowly around a pretty woman, if there is any chance to get up real close to her quickly; and a woman isn't going to jump over a live mouse, unless there are walls in every other direction.—Kinsman Democrat.  
—Mrs. Otis Lorton departed Monday, for an extended visit east. She will stop a short time at Mud Springs, Indiana, and from thence will go to London, Ohio, to be gone for several months. Otis will necessarily be compelled to undergo some of the trials and tribulations incident to life's vicissitudes of bachelorism which, if we don't guess amiss, will be a powerful contributory to the deterioration of his anatomical structure.  
—Drowned: The little daughter of Mr. and Mrs. J. F. McDaniel of Clay postoffice 27 miles southeast of Alva, fell into a spring near their house and drowned on April 28th. Funeral services were conducted by Rev. Brown of that vicinity and the little body was buried on the farm on the 29th. She was a bright and interesting child and her death occurred on the day that she was four years old. The parents have the sincere sympathy of all their neighbors and acquaintances.—Alva Pioneer.  
—Steve Carr of Deerhead was in town yesterday pouring out his wrath on a gang of professional thieves. On Friday night these stealthy pests took the liberty of tearing down a large amount of Steve's fence and appropriating the wire to the establishment of a wholesale store at a secluded place. This is about the boldest act that we have heard of for some time. Generally when a man steals something he will be accommodating enough to take it out of the counting house or keep it hid; but in this case we find the thief setting up his plunder and going right into the retail business. Steve has the guilty parties spotted and it would be well for them to return the stolen material and make the proper amends. There has been entirely too much of this kind of business going on in that vicinity and the citizens are beginning to take the matter in hand. Any kind of stealing is noxious in the extreme but when it goes to hauling off real estate it is quite intolerable and should be brought to a focus.
